

Simplicity

Performance

Wysi Jas

Wysi Jas and you speak the same language !

Reliable and adapted to your requirements, industrial printing in three steps !

1 - THE GRAPHIC DESIGN OF THE MESSAGES

With **Wysi Jas** you can **create** and **display** the messages on your computer exactly how you wish them to appear on your products.

2 - THE PRODUCTION

Click... instantly all your messages are transferred to all the Jason printers connected to your computer.

The printing operation is underway.

You can follow it one for one on the screen and interrupt at any time to change the data.

3 - LOOKUP THE DIARY

The sequence of your production is automatically and permanently memorised. If you need **any information** consult the diary where all the messages are filed and where all the details concerning **each of the production phases may be found.**

Wysi Jas, the printing management, which guarantees the outstanding **PERFORMANCE** of your production.
